

## INSTALLATION PRICE QUOTATION SERVICE (IPQ)

### YOU ARE ON YOUR WAY!

Thank you for requesting an Installation Price Quotation Service (IPQ). Traemand coordinates and dispatches local installation service professionals for IKEA kitchen projects. We will be working with you to determine how much your project will cost.

#### MAKING AN ESTIMATE

We will send you an installation estimate based on the drawings you created in the IKEA Home Planner. An estimator will call to discuss the estimate and to determine if an in-home visit is necessary (on the date you scheduled). Most estimates do not require an in-home visit.

#### ALL IN ONE PLACE

Your installation estimate and any other documents are stored in TraemandWorkspace.com. This allows you, the store, and us access your project documents from one easy-to-access place. No more endless emails! You will receive a registration link to TraemandWorkspace.com (customer portal) via email. Please register when you have a moment. If you need help just let us know.

#### DISCUSSING YOUR ESTIMATE

An estimator will call you to discuss the installation estimate and any other project requirements. The estimator will determine if an in-home visit is necessary to verify that the site conditions do not affect the installation estimate for the kitchen plan provided. If your project requires a home visit, then it will take place on the date you scheduled at IKEA.

#### INDIVIDUAL KITCHEN PLANNING (IKP)

The Installation Price Quotation Service (IPQ) does not include design advice or layout planning. If you need help making or fixing a cabinet plan, you can purchase the Measurement & Planning (M&P) at your local IKEA store.

#### GETTING IT DONE

Planning is only the start of your project. We can help with cabinet installation and additional general contracting needs. We have local installation professionals and general contractors ready to make your project a success. Signing up is easy, just click the installation link on your profile on TraemandWorkspace.com or give us a call.

We are here for you! If you have questions or need help, please email [coordinators@traemand.com](mailto:coordinators@traemand.com) or call us at **(720) 214-4064**
