

## INSTALLATION PRICE QUOTATION SERVICE (IPQ)

### YOU ARE ON YOUR WAY!

Thank you for requesting an Installation Price Quotation Service (IPQ). Traemand coordinates and dispatches local installation service professionals for IKEA kitchen projects. We will be working with you to determine how much your project will cost.

#### MAKING AN ESTIMATE

We will prepare and send you an installation estimate based on the drawings you created in the IKEA Home Planner. Then we will call you to go over your drawings and our estimate in detail.

#### ALL IN ONE PLACE

Your installation estimate and any other documents are stored in your customer portal. This allows you, the store, and us to access your project documents from one place. No more endless emails! You will receive a registration link to your customer portal via email. Please register when you have a moment. If you need help just let us know.

#### DISCUSSING YOUR ESTIMATE

An estimator will call you to discuss the installation estimate, your preferred installation dates, and any other project requirements based on your drawings. During this call, we will make sure we understand your vision for your kitchen and what services you need from us to complete your project. We can't wait to work with you!

#### MEASUREMENT & PLANNING (M&P)

The Installation Price Quotation Service (IPQ) does not include design advice or layout planning. If you need help making or fixing a cabinet plan, you can purchase the Measurement & Planning Service (M&P) at your local IKEA store.

#### GETTING IT DONE

Once you have agreed to the services and price on the estimate, we will prepare an installation agreement that you can sign inside your customer portal. Included in the agreement are all of the services we will perform for your project and your estimated installation dates. If you have any questions or need to make changes, just let us know—it's easy!

We are here for you! If you have questions or need help, please email [coordinators@traemand.com](mailto:coordinators@traemand.com) or call us at **(720) 214-4064**.
