

TRAEMAND

MEASUREMENT SERVICE (M1)

WE CAN'T WAIT TO MEET YOU!

Thank you for purchasing the Measurement Service (M1). By kicking off your project with professional measurements, you are starting your project right! We will be sending a measurement technician to you to perform the Measurement Service.

ALL IN ONE PLACE

You will receive a registration link to your customer portal via email. All of the work we do is saved to your portal, so it is easy for you to access. Please register when you have a moment. If you need help just let us know.

LEAVE THE MEASURING TO US

A measurement technician will visit your location to measure your space, document the dimensions, and upload that documentation to your portal. The service itself takes between 20-45 minutes and will occur during the two-hour time window on the date shown on the receipt. The measurement technician will call you prior to your appointment to confirm the exact time of their arrival.

IKEA HOME PLANNER (IHP)

We will enter the measurements and the outline of your space into the IKEA Home Planner (IHP) for you to use to plan your kitchen. The login information and links to the IHP can be found on your portal.

PLANNING YOUR KITCHEN

The Measurement Service (M1) does not include design advice or layout planning. If you need help making a plan or even polishing the plan you already have, you can set up a Planning appointment where we will work with you online or in the store.

GETTING IT DONE

Once your planning is complete, we can prepare an Installation Price Quotation (IPQ). From there, it's easy to schedule your installation. Just click the installation link on your profile on your portal or give us a call.

We are here for you! If you have questions or need help, please email coordinators@traemand.com or call us at **(720) 214-4064**.
