

PLANNING SERVICE (P)

WE CAN'T WAIT TO WORK WITH YOU!

Traemand has planned, assembled, and installed more IKEA kitchens than any other company in North America. We can't wait to get started on yours! The service is simple. We measure for you, or you complete your own, then we work with you remotely, at your own pace, to plan your dream kitchen.

MEASURING YOUR SPACE

During your 45-minute, professional measurement appointment, a measure technician will visit your home, take measurements of your space, upload those measurements to your Customer Portal, and add your measurements to the IKEA Home Planner. If you plan to self-measure, follow the self-measurement instructions provided by IKEA and upload the measurements of your space to your customer portal. If you need help, just let us know!

KNOWING WHAT YOU LIKE

Good planning starts with knowing what you like. To get you thinking about the features you'd like in your new kitchen, complete the easy-to-use Kitchen Planning Checklist via your Customer Portal. Pick out door styles, appliances, and any other functional details you would like to see included in your plan.

PLANNING THAT WORKS WITH YOUR LIFE

Once we receive your measurements via the Customer Portal, a Kitchen Planning Consultant will conduct a 90-minute call during your scheduled appointment time to discuss your hopes and dreams for your kitchen. We use the responses from your Kitchen Planning Checklist to craft your Kitchen Plan Package. Your plan package includes a full layout of your new kitchen, total parts costs, and an installation estimate—all uploaded to your portal. Need to make changes to your plan? We can help with revisions, too.

PRODUCTS & DELIVERY

Once you're happy with your plan, take your Kitchen Plan Package to IKEA. There, a kitchen coworker will help you purchase your products by using the Total Parts Sheet. Then the coworker will help schedule the delivery of your new kitchen!

GETTING IT DONE

As IKEA's preferred service provider, we can help with cabinet installation, too! We have local installation professionals ready to make your project a success. Let us know when your products are scheduled for delivery to align your kitchen installation service and keep your remodeling project on track! Signing up is easy, just click the installation link on your profile in your portal or give us a call!

We are here for you! If you have questions or need help, please email planning@traemand.com or call us at **720-214-4064**.
