

INSTALLATION PRICE QUOTATION SERVICE

YOU ARE ON YOUR WAY!

Thank you for requesting an Installation Price Quotation Service (IPQ). Traemand coordinates and dispatches independent installation service professionals for IKEA kitchen projects. We will be working with you to determine how much your project will cost.

MAKING AN ESTIMATE

We will prepare and send you an installation estimate based on the drawings you created in the IKEA Home Planner. Then we will call you to go over your drawings

ALL IN ONE PLACE

Your installation estimate and any other documents are stored in your customer portal. This allows you, the store, and us to access your project documents from one place. No more endless emails! You will receive a link to your customer portal via email. Please visit when you have a moment. If you need help just let us know.

DISCUSSING YOUR ESTIMATE

An estimator will call you to discuss the installation estimate, your preferred installation dates, and any other project requirements based on your drawings. During this call, we will make sure we understand your vision for your kitchen and what services you need from us to complete your project. We can't wait to work with you!

PROFESSIONAL PLANNING

The Installation Price Quotation does not include design advice or layout planning. If you need help making a plan or even polishing the plan you already have, you can set up a planning appointment where a professional kitchen planner will work with you online or in store.

GETTING IT DONE

Once you have agreed to the services and price on the estimate, we will prepare an installation agreement for you to sign. Included in the agreement are all of the services we will perform for your project and your estimated installation dates. If you have any questions or need to make changes, just let us know—it's easy!

We are here for you! If you have questions or need help, please email sales@traemand.com or call us at (855) 465-7742.

IKEA partners with Traemand, a preferred kitchen services provider, to connect you with independent, professional kitchen installers that are licensed, insured and warranty their work for 5 years post-completion on IKEA-supplied kitchen products.
